Correction to: *J Biosci* (2024) 49:28 <https://doi.org/10.1007/s12038-023-00413-8>

In Volume 49 of the *Journal of Biosciences*, in the article titled ‘Rare genetic disorders in India: Current status, challenges and CRISPR-based therapy’ by Pallabi Bhattacharyya, Kanikah Mehndiratta, Souvik Maiti, and Debojyoti Chakraborty, published on 19 February 2024 (<https://doi.org/10.1007/s12038-023-00413-8>), in a sentence in section 4, ‘Indian initiatives towards rare diseases’, it was incorrectly stated ‘ORDI, founded in 2013 by Prasanna Shirol and Alok Bhattacharya, is a prominent umbrella organization (non-government) dealing with rare disorders in India (<http://www.ordindia.in>)’. The correct sentence should read as ‘ORDI, co-founded in 2013 by Prasanna Shirol, is a prominent umbrella organization (non-government) dealing with rare disorders in India (<http://www.ordindia.in>)’.

This article is part of the Topical Collection: The Rare Genetic Disease Research Landscape in India.
